# LAMILUX Anti Slip

INNOVATIVE FIBERGLASS SOLUTIONS

## PRODUCT DESCRIPTION

LAMILUX Anti Slip is a glass-fibre-reinforced laminate which combines the excellent mechanical characteristics and resistance of glass-fibre reinforced composites with an effective and wear-resistant anti-slip coating.

## VERSIONS

## LAMILUX ANTI SLIP IS AVAILABLE

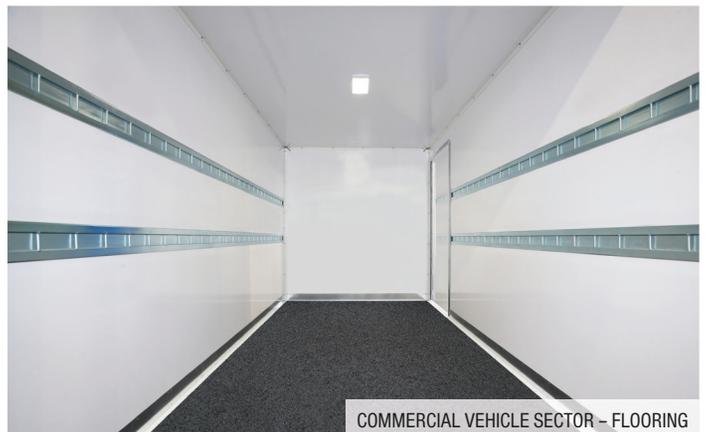

- in thicknesses between 1.2 and 2.1 mm
- in widths up to 3.0 m
- in sheets or coils
- in standard colours: greys (RAL 7030, 7040 or 7043) and black (similar to RAL 9005)
- also with epoxy resin
- in other thicknesses, dimensions and colours, on request
- with different treatments on the back surface (smooth, sanded or soft sanded), on request

## SPECIFIC PRODUCT ADVANTAGES

- high mechanical strength and resistance
- different anti-slip effects are possible, achieved with variable anti-slip grains (ratings from R11 to R13 in accordance with DIN 51130)
- even distribution of the anti-slip grains thanks to the automated, continuous manufacturing process
- extremely high wear-resistance as a result of excellent embedding of the anti-slip granules

## SECTORS

- Caravan sector
- Commercial vehicle sector
- Building sector
- Bus sector
